

# Independent Auditor's Report

## To The Members of Arvind Fashions Limited

## Report on the Audit of the Consolidated Financial Statements

### OPINION

We have audited the accompanying consolidated financial statements of Arvind Fashions Limited ("the Parent") and its subsidiaries, (the Parent and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2024, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of the other auditors on separate financial statements of the subsidiaries referred to in the Other Matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2024, and their consolidated profit, their consolidated total comprehensive income, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

### Key Audit Matter

#### Revenue Recognition: [Assertion- Cut off and Occurrence] and provision for sales return

Revenue recognition involves certain key judgements relating to identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized at a point of time and provision for sales return.

Cut-off and Occurrence is the key assertion in so far as revenue recognition is concerned.

### BASIS FOR OPINION

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143 (10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by other auditors in terms of their reports referred to in the Other Matters section below is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

### KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Consolidated financial statements for the financial year ended March 31, 2024. These matters were addressed in the context of our audit of the Consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

### How the key Audit Matter Was Addressed in the Audit

#### Principal Audit Procedures Performed:

The details of audit procedure performed by us and Component auditors are as follows:

- Selected a sample and tested the operating effectiveness of the internal control, relating to identification of the distinct performance obligations and determination of transaction price. We carried out a combination of procedures involving enquiry and observation, re-performance and inspection of evidence in respect of operation of these controls.

### Key Audit Matter

There is a risk that revenue is recognized on sale of goods around the year end without substantial transfer of control and is not in accordance with Ind AS-115 "Revenue from Contracts with Customers".

Additionally, there is risk that revenue recorded at point of sale did not occur and due to this revenue is overstated in the books.

Also, Group has contracts with customers which entitles them to right of return. At year end, amount of expected returns that have not yet been settled with the customers are estimated and accrued.

Estimating the amount of such accrual at year end is considered a key audit matter due to assumptions and judgments required to be made by management.

### How the key Audit Matter Was Addressed in the Audit

- We obtained an understanding of process and evaluated the design and operating effectiveness of key controls over timing of revenue recognition, control over occurrence of revenue and calculating, reviewing and approving sales returns.
- Selected samples and performed the following procedures:
  - Read, analyzed and identified the distinct performance obligations in these contracts and compared these performance obligations with that identified and recorded by the Group.
  - For the selected samples, tested with the performance obligations specified in the underlying contracts.
  - Performed analytical procedures for reasonableness of revenues with comparative period.
  - Analyzed historical trends for returns and held discussions with management to understand changes in provisioning norms/additional provisions made based on management's assessment of market conditions and based on that, we have tested the estimates of returns related accruals with underlying documentation such as management approved norms, customer agreements, sales data and customer reconciliations, as applicable.
- At the year end, we have performed early and late cut off to test that the revenue is recorded in the appropriate period. We have traced sales with proof of delivery (POD) to confirm the recognition of sales.
- Performed substantive testing of samples for sales recognition from different stores and understanding the terms of contract with respect to transfer of risk and rewards and verification of collection matching the revenue recognised.

### Principal Audit Procedures Performed:

Audit procedures performed by us, are as follows:

- Assessed the Group accounting policy with respect to recognition of deferred taxes in accordance with Ind AS 12 "Income Taxes".
- Analyzed the performance of the component and assessed the reasonableness of assumptions used in forecast of future taxable profits, examined the consistency of projections used for assessing DTA and component's expected utilization of the unabsorbed business losses and unabsorbed depreciation, including understanding of management's estimate of business impact based on current market and economic conditions.

**Key Audit Matter**

The recognition and measurement of deferred tax assets is a key audit matter as its recoverability within the allowed time frame involves estimate of financial projections, availability of sufficient taxable income in the future and judgments in the interpretation of tax regulations and tax positions adopted by the Group.

**How the key Audit Matter Was Addressed in the Audit**

- Assessed the disclosures in Note 25 (B) of the Consolidated Ind AS financial statements in accordance with the requirements of Ind AS 12 "Income Taxes".

As informed to us by respective component auditors, following procedures are performed by them :-

- Assessed the accounting policy with respect to recognition of deferred taxes in accordance with Ind AS 12 "Income Taxes".
- Analyzed the performance of the component and assessed the reasonableness of assumptions used in forecast of future taxable profits, examined the consistency of projections used for assessing DTA and component's expected utilization of the unabsorbed business losses and unabsorbed depreciation, including understanding of management's estimate of business impact based on current market and economic conditions.

**INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON**

- The Parent's Board of Directors is responsible for the other information. The other information comprises the other information included in the Director's report, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.
- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiaries audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiaries is traced from their financial statements audited by the other auditors.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS**

The Parent's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Parent, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intend to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

**AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent has

adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Parent and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### OTHER MATTERS

(a) We did not audit the financial statements of 4 subsidiaries, whose financial statements reflect total assets of ₹ 1,064.63 crores as at March 31, 2024, total revenues of ₹ 1,935.87 crores and net cash outflows amounting to ₹ 29.19 crores for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements above and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work

done and the reports of the other auditors and the financial statements.

#### REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of the reports of the other auditors on the separate financial statements of the subsidiaries referred to in the Other Matters section above we report, to the extent applicable that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
  - b) In our opinion, proper books of account as required by law maintained by the Group including relevant records relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books, except in relation to compliance with the requirements of audit trail, refer paragraph (i) (vii) below.
  - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
  - d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.
  - e) On the basis of the written representations received from the directors of the Parent as on March 31, 2024 taken on record by the Board of Directors of the Company and the reports of the statutory auditors of its subsidiary companies, none of the directors of the Group companies, is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.

- f) The modification relating to the maintenance of accounts and other matters connected therewith, is as stated in paragraph (b) above.
- g) With respect to the adequacy of the internal financial controls with reference to consolidated financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Parent, subsidiary companies. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls with reference to consolidated financial statements of those companies.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the auditor's reports of subsidiary companies, the remuneration paid by the Parent and such subsidiary companies to their respective directors during the year is in accordance with the provisions of section 197 of the Act.
- i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group - Refer Note 26 to the consolidated financial statements;
  - ii) The Group did not have any material foreseeable losses on long-term contracts including derivative contracts.
  - iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Parent and its subsidiary companies.
  - iv) (a) The respective Managements of the Parent and its subsidiaries which

are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us and to the other auditors of such subsidiaries respectively that, to the best of their knowledge and belief, as disclosed in the note 41(iv)(I) to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Parent or any of such subsidiaries to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Parent or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The respective Managements of the Parent and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us and to the other auditors of such subsidiaries respectively that, to the best of their knowledge and belief, as disclosed in the note 41(iv)(II) to the consolidated financial statements, no funds have been received by the Parent or any of such subsidiaries from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Parent or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances performed by us and that performed by the auditors of the subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditor's notice that has caused us or the other auditors to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v) The final dividend proposed in the previous year, declared and paid by the Parent and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, where applicable, during the year is in accordance with section 123 of the Act, as applicable.
- vi) As stated in note 48 to the consolidated financial statements, the Board of Directors of the Parent and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, where applicable, have proposed final dividend for the year which is subject to the approval of the members of the Parent and such subsidiaries at the ensuing respective Annual General Meetings. Such dividend proposed is in accordance with section 123 of the Act, as applicable.
- vii) Based on our examination which included test checks and that performed by the respective auditors of the subsidiaries and based on the other auditor's reports of its subsidiary companies incorporated in India whose financial statements have been audited under the Act, the Parent, its subsidiary companies incorporated in India have used accounting softwares for maintaining their respective books

of account for the financial year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software(s) except for as mentioned below. Further, during the course of audit, we and respective other auditors, whose reports have been furnished to us by the Management of the Parent, have not come across any instance of the audit trail feature being tampered with in respect of accounting softwares for the period for which the audit trail feature was operating.

- In case of one subsidiary incorporated in India, no audit (edit log) was enabled for certain software at database level.
- In case of one subsidiary incorporated in India, no audit (edit log) was enabled for certain changes made using privileged/administrative access rights to the accounting software at database level.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

2. With respect to the matters specified in clause (xxi) of paragraph 3 and paragraph 4 of the Companies (Auditor's Report) Order, 2020 ("CARO"/ "the Order") issued by the Central Government in terms of Section 143(11) of the Act, according to the information and explanations given to us, and based on the CARO reports issued by us and the auditors of respective companies included in the consolidated financial statements to which reporting under CARO is applicable, as provided to us by the Management of the Parent, we report that there are no qualifications or adverse remarks by the respective auditors in the CARO reports of the said respective companies included in the consolidated financial statements except for the following:

Name of the company	CIN	Nature of relationship	Clause Number of CARO report with qualification or adverse remark
Arvind Fashions Limited	L52399GJ2016PLC085595	Parent	Clause (xvii)
Arvind Youth Brands Private Limited	U52100GJ2020PTC112995	Subsidiary	Clause (xvii)
Value Fashion Retail Limited	U52609DL2020PLC362661	Subsidiary	Clause (xix)

## Annexure "A" to the Independent Auditor's Report

(Referred to in paragraph 1(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

### REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as at and for the year ended March 31, 2024, we have audited the internal financial controls with reference to consolidated financial statements of Arvind Fashions Limited (hereinafter referred to as "Parent") and its subsidiary companies, which are companies incorporated in India, as of that date.

### MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Parent, its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the internal control with reference to consolidated financial statements criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Parent, its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the

Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies, which are companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements of the Parent, its subsidiary companies, which are companies incorporated in India.

### MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated

financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### OPINION

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors

referred to in the Other Matters paragraph below, the Parent, its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2024, based on the criteria for internal financial control with reference to consolidated financial statements established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### OTHER MATTERS

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements insofar as it relates to 3 subsidiary companies, which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of the above matters.

# Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

## 1. CORPORATE INFORMATION

Arvind Fashions Limited ("the Company" or "the Parent Company") is a public limited company incorporated in India under the provisions of the Companies Act, 2013 and has its registered office at Arvind Limited Premises, Naroda Road, Ahmedabad – 380025 having CIN L52399GJ2016PLC085595. The Company has its primary listings on the Bombay Stock Exchange Limited and National Stock Exchange of India Limited ("the Stock Exchanges").

Arvind Fashions Limited together with its consolidated Subsidiaries is herein referred to as "the Group".

The Group is operating in branded apparels, beauty and accessories. The Group is having a portfolio of owned and licensed international brands including US Polo, Arrow, Flying Machine, Tommy Hilfiger, Calvin Klein and others.

The Group has diversified business by brands (power, emerging and specialty retail), gender (menswear, womenswear and kidswear), categories (denims, topwear, trousers, innerwear, footwear, beauty etc.) and sales channels (retail, distribution, departmental stores and online).

The Group's Consolidated Financial Statements have been approved by Board of Directors in the meeting held on May 21, 2024.

## 2. STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION

### 2.1 Basis of Preparation and Presentation and Statement of Compliance

The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), read with Section 133 of the Companies Act, 2013 ("the Act") and presentation requirements of Division II of Schedule III of the Act and other relevant provisions of the Act as applicable. The consolidated financial statements have been prepared on accrual basis under the historical cost convention except certain assets and

liabilities, which have been measured at fair value as required by the relevant Ind AS.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The consolidated Financial Statements comprising of Consolidated Balance Sheet, Consolidated Statement of Profit and Loss including other comprehensive income, Consolidated Statement of Changes in Equity and Consolidated Statement of Cash Flows as at March 31, 2024 have been prepared in accordance with Indian Accounting Standards (Ind AS) prescribed under section 133 of the Companies Act, 2013 read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of schedule III of the Companies Act, 2013 (Ind AS compliant schedule III) as applicable to Consolidated Financial Statement.

### 2.2 Historical Cost Convention

The Consolidated Financial Statements have been prepared on a historical cost basis, except for the followings:

- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments);
- Derivative financial instruments measured at fair value;
- Share based payments;
- Defined benefit plans – plan assets measured at fair value;

### 2.3 Rounding off

The Consolidated Financials Statement are prepared in Indian Rupees (INR) and all the values are rounded to nearest crores as per the requirement of Schedule III, except when otherwise indicated. Figures less than ₹50,000

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

which are required to be shown separately, have been shown in actual brackets.

## 2.4 Principles of Consolidation of Subsidiaries

The Group consolidates entities which it owns or controls. The Consolidated Financial Statement comprise the financial statements of the Group and its subsidiaries. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a

subsidiary acquired or disposed of during the year are included in the Consolidated Financial Statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses including unrealized gain / loss and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. Any difference between the amount at which the non-controlling interest are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to shareholders of the Group.

If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Derecognises the carrying amount of any non-controlling interests
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as

# Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

## 3. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The following are the significant accounting policies applied by the Group in preparing its Consolidated Financial Statements consistently to all the periods presented:

### 3.1 Current versus non-current classification

The Group presents assets and liabilities in the Balance Sheet based on current/non-current classification.

An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Operating cycle of the Group is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. For the purpose of current/non-current classification of assets, the Group has ascertained its normal operating cycle as twelve months.

### 3.2 Non-Current Assets classified as held for sale

The Group classifies non-current assets as held for sale if their carrying amounts are recoverable principally through a sale rather than through continuing use of the assets and actions required to complete such sale indicate that it is unlikely that significant changes to the plan to sell will be made or that the decision to sell will be withdrawn. Also, such assets are classified as held for sale only if the management expects to complete the sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their carrying amount and the fair value less cost to sell. Non-current assets are not depreciated or amortized.

### Discontinued operation

A discontinued operation is a business of the entity that has been disposed off or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose off such a line of business or area of operations. The results of discontinued operations are presented separately in the Statement of Profit and Loss.

### 3.3 Use of estimates and judgements

The estimates and judgements used in the preparation of the financial statements are continuously evaluated by the Group and are based on historical experience and various other assumptions and factors (including

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

expectations of future events) that the Group believes to be reasonable under the existing circumstances. Difference between actual results and estimates are recognised in the period in which the results are known / materialised.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

## 3.4 Business combinations and goodwill

In accordance with Ind AS 101 provisions related to first time adoption, the Group has elected to apply Ind AS accounting for business combinations prospectively from 1 April 2015. As such, Indian GAAP balances relating to business combinations entered into before that date, including goodwill, have been carried forward with minimal adjustment.

Business combinations are accounted for using the acquisition method. At the acquisition date, identifiable assets acquired and liabilities assumed are measured at fair value. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition date fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. The consideration transferred is measured at fair value at acquisition date and includes the fair value of any contingent consideration. However, deferred tax asset or liability and any liability or asset relating to employee benefit arrangements arising from a business combination are measured and recognized in accordance with the requirements of Ind AS 12, Income Taxes and Ind AS 19, Employee Benefits, respectively. Where the consideration transferred exceeds the fair value of the net identifiable assets acquired and liabilities assumed, the excess is recorded as goodwill. Alternatively, in case of a bargain purchase wherein the consideration transferred is lower than the fair value of the net identifiable assets

acquired and liabilities assumed, the Group after assessing fair value of all identified assets and liabilities, record the difference as a gain in other comprehensive income and accumulate the gain in equity as capital reserve. The costs of acquisition excluding those relating to issue of equity or debt securities are charged to the Statement of Profit and Loss in the period in which they are incurred.

In case of business combinations involving entities under common control, the above policy does not apply. Business combinations involving entities under common control are accounted for using the pooling of interest method. The net assets of the transferor entity or business are accounted at their carrying amounts on the date of the acquisition subject to necessary adjustments required to harmonise accounting policies. Any excess or shortfall of the consideration paid over the share capital of transferor entity or business is recognised as capital reserve under equity.

## 3.5 Foreign currencies

The Group's financial statements are presented in INR, which is also the Group's functional and presentation currency.

### Transactions and balances

Transactions in foreign currencies are initially recorded by the Group's functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement of such transaction and on translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rate are recognised in profit or loss. They are deferred in equity if they relate to qualifying cash flow hedges.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates

# Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item.

## 3.6 Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment. When significant parts of Property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Capital work-in-progress comprises cost of fixed assets that are not yet installed and ready for their intended use at the balance sheet date.

### Derecognition

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is derecognised.

### Depreciation

Depreciation on property, plant and equipment is provided so as to write off the cost of assets less residual values over their useful lives of the assets, using the straight line method as prescribed under Part C of Schedule II to the Companies Act 2013 except for following assets category as shown in Table below.

Asset	Estimated Useful Life
Buildings	30 Years
Plant & Machinery	6 to 15 Years
Office Equipment	6 to 8 Years
Furniture & Fixture	6 to 9 Years
Motor Cars	4 Years
Computers, Servers and Network	3 Years

However, Leasehold Improvements have been depreciated considering the lease term or useful life whichever is lower.

The management believes that the useful life as given above best represent the period over which management expects to use these assets. Hence the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II to the Companies Act 2013. Any change in useful life are being applied prospectively in accordance with Ind AS 8 – "Accounting Policies, Changes in Accounting Estimates and Errors".

When parts of an item of property, plant and equipment have different useful life, they are accounted for as separate items (Major Components) and are depreciated over their useful life or over the remaining useful life of the principal assets whichever is less. Depreciation for assets purchased/sold during a period is proportionately charged for the period of use.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

## 3.7 Leases

The Group's lease asset classes primarily consist of leases for buildings. The group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the group assesses whether: (1) the contract involves the use of an identified asset (2) the group has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognizes a right-of-use asset (ROU) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their

carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments are fixed payments. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

## 3.8 Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, Intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is recognised in the Statement of Profit and Loss in the period in which expenditure is incurred.

# Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

The useful lives of intangible assets are assessed as finite.

Intangible assets with finite lives are amortised over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the Statement of Profit and Loss.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

Intangible assets under development comprises cost of development cost and other operating cost incurred during development phase and ready for their intended use at the balance sheet date.

## Amortisation

Job Workers' Network Value, Vendors' Network Value and Distribution Network Value have been amortized on Straight Line basis over the period of 5 years.

Value of License Brands/License fees acquired under demerger scheme has been amortized on Straight Line basis over the period of 10 years (in Calvin Klein Arvind Fashion Private Limited – the value of License Brands/License Fees has been amortised over the remaining term of license period or 15 years whichever is less).

Technical Process Development has been amortized on Straight Line basis over the period of 6 years and Product Development has been amortized on Straight Line basis over the period of 3-5 years.

Software and Website are depreciated over management estimate of its useful life of 5 years (over a term of 3-5 years in Tommy Hilfiger Arvind Fashion Private Limited).

## 3.9 Inventories

Trims and Accessories, Stock-in-trade and Packing Materials are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Trims and Accessories: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in, first out basis.
- Stock in Trade: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

## 3.10 Impairment

Assessment for impairment is done at each Balance Sheet date as to whether there is

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

any indication that a non-financial asset may be impaired. Assets that are subject to depreciation and amortisation and assets representing investments in subsidiary are reviewed for impairment, whenever events or changes in circumstances indicate that carrying amount may not be recoverable. Such circumstances include, though are not limited to, significant or sustained decline in revenues or earnings and material adverse changes in the economic environment.

An impairment loss is recognised whenever the carrying amount of an asset or its CGU exceeds its recoverable amount. The recoverable amount of an asset is the greater of its fair value less cost to sell and value in use. To calculate value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market rates and the risk specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the CGU to which the asset belongs. Fair value less cost to sell is the best estimate of the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the cost of disposal.

Impairment losses, if any, are recognised in the Statement of Profit and Loss and included in depreciation and amortisation expense. Impairment losses, on assets other than goodwill are reversed in the Statement of Profit and Loss only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.

## 3.11 Revenue Recognition

The Group derives revenues primarily from sale of traded goods and related services. Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those

goods or services. The Group has generally concluded that it is the principal in its revenue arrangements except for the agency services because it typically controls the goods before transferring them to the customer and sales under sale or return basis arrangements.

### a) Sale of goods

Revenue from the sale of goods is recognized at the point in time when control of the goods is transferred to the customer.

#### Variable consideration

If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. Some contracts for the sale of goods provide customers with a right of return and discounts. The rights of return and discounts give rise to variable consideration.

#### i. Rights of return

Certain contracts provide a customer with a right to return the goods within a specified period. The Group uses the expected value method to estimate the goods that will be returned because this method best predicts the amount of variable consideration to which the Group will be entitled. The requirements in Ind AS 115 on constraining estimates of variable consideration are also applied in order to determine the amount of variable consideration that can be included in the transaction price. For goods that are expected to be returned, instead of revenue, the Group recognises a refundable liability. A right of return asset (and corresponding adjustment to change in inventory) is also recognised

# Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

for the right to recover products from a customer.

### ii. Discounts

Discounts are offset against amounts payable by the customer. To estimate the variable consideration for the expected future discounts, the Group applies the expected value method. The selected method that best predicts the amount of variable consideration is primarily driven by the number of volume thresholds contained in the contract.

### b) Assets and liabilities arising from returns

#### i. Returnable Asset

Returnable asset represents the Group's right to recover the goods expected to be returned by customers. The asset is measured at the former carrying amount of the inventory, less any expected costs to recover the goods, including any potential decrease in the value of the returned goods. The Group updates the measurement of the asset recorded for any revisions to its expected level of returns, as well as any additional decreases in the value of the returned products.

#### ii. Refundable liabilities

A refundable liability is the obligation to refund some or all of the consideration received (or receivable) from the customer and is measured at the amount the Group ultimately expects it will have to return to the customer. The Group updates its estimates of refundable liabilities (and the corresponding change in the transaction price) at the end of each reporting period. Refer to above accounting policy on variable consideration.

### c) Sale of goods - customer loyalty programme (deferred revenue)

The Group operates a loyalty point programme which allows customers to accumulate points when they purchase the products. The points

can be redeemed for free products, subject to a minimum number of points being obtained. Consideration received is allocated between the product sold and the points issued, with the consideration allocated to the points equal to their fair value. Fair value of the points is determined by applying a statistical analysis. The fair value of the points issued is deferred and recognised as revenue when the points are redeemed.

### d) Rendering of services

Revenue from store displays and sponsorships are recognised based on the period for which the products or the sponsors' advertisements are promoted/ displayed. Facility management fees are recognised pro-rata over the period of the contract.

Revenue from other services are recognised based on the services rendered in accordance with the terms of contacts on the basis of work performed.

### e) Gift Vouchers

The amount collected on sale of a gift voucher is recognized as a liability and transferred to revenue (sales) when redeemed or to revenue (sale of services) on expiry

### f) Interest income

For all financial instruments measured at amortised cost and interest-bearing financial assets classified as fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

Interest income is included in other income in the statement of profit or loss.

## g) Profit or loss on sale of Investments

Profit or Loss on sale of investments is recorded on transfer of title from the Group and is determined as the difference between the sale price and carrying value of investment and other incidental expenses.

## 3.12 Financial instruments - initial recognition and subsequent measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

### a) Financial assets

#### (i) Initial recognition and measurement of financial assets

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial assets.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

#### (ii) Subsequent measurement of financial assets

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost
- Financial assets at fair value through other comprehensive income (FVTOCI)
- Financial assets at fair value through profit or loss (FVTPL)

- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

### Financial assets at amortised cost

A financial asset is measured at amortised cost if:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows, and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Group. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

#### • Financial assets at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments

# Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

of principal and interest (SPPI) on the principal amount outstanding.

Financial assets included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Group recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI financial asset is reported as interest income using the EIR method.

#### • Financial assets at fair value through profit or loss

FVTPL is a residual category for financial assets. Any financial asset, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a financial asset, which otherwise meets amortized cost or fair value through other comprehensive income criteria, as at fair value through profit or loss. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Group has not designated any debt instrument as at FVTPL.

After initial measurement, such financial assets are subsequently measured at fair value with all changes recognised in Statement of profit and loss.

#### b) Equity instruments:

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other

equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L

#### (iii) Derecognition of financial assets

A financial asset is derecognised when:

- the contractual rights to the cash flows from the financial asset expire, or
- The Group has transferred its contractual rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either

(a) the Group has transferred substantially all the risks and rewards of the asset, or

(b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-

## Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

### (iv) Reclassification of financial assets

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Group's senior management determines change in the business model as a result of external or internal changes which are significant to the Group's operations. Such changes are evident to external parties. A change in the business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. If the Group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Group does not

restate any previously recognised gains, losses (including impairment gains or losses) or interest.

### (v) Impairment of financial assets

#### a) Financial Assets

In accordance with Ind-AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance.
- Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 109 and Ind AS 115.

The Group follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables or contract assets resulting from transactions within the scope of Ind AS 109 and Ind AS 115, if they do not contain a significant financing component
- Trade receivables or contract assets resulting from transactions within the scope of Ind AS 109 and Ind AS 115 that contain a significant financing component, if the Group applies practical expedient to ignore separation of time value of money, and
- Right Of Use Assets resulting from transactions within the scope of Ind AS 116

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance

## Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events on a financial instrument that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the Group is required to use the remaining contractual term of the financial instrument

- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected in a separate line under the head "Other expenses" in the P&L. The balance sheet presentation for various financial instruments is described below:

- Financial assets measured as at amortised cost, contract assets and ROU Assets: ECL is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Group does not reduce impairment allowance from the gross carrying amount.

For assessing increase in credit risk and impairment loss, the Group combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

The Group does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

#### b) Financial Liabilities

##### (i) Initial recognition and measurement of financial liabilities

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value minus, in the case of financial liabilities not recorded at fair value through profit or loss, transaction costs that are attributable to the issue of the financial liabilities.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

## (ii) Subsequent measurement of financial liabilities

The measurement of financial liabilities depends on their classification, as described below:

- Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risks are recognized in OCI. These

gains/ losses are not subsequently transferred to P&L. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Group has not designated any financial liability as at fair value through profit and loss.

- Loans and Borrowings

This is the category most relevant to the Group. After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings.

- Derecognition of financial liabilities

A financial liability (or a part of a financial liability) is derecognised from its balance sheet when, and only when, it is extinguished i.e. when the obligation specified in the contract is discharged or cancelled or expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying

# Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

amounts is recognised in the statement of profit or loss.

- c) Derivative financial instruments and hedge accounting

### Initial recognition and subsequent measurement

The Group uses derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks and interest rate risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

For the purpose of hedge accounting, hedges are classified as:

- Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment

- Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Group's risk management objective and strategy for undertaking hedge, the hedging/ economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

- (i) Fair value hedges

The change in the fair value of a hedging instrument is recognised in the statement of profit and loss as finance costs. The change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item and is also recognised in the statement of profit and loss as finance costs.

For fair value hedges relating to items carried at amortised cost, any adjustment to carrying value is amortised through profit or loss over the remaining term of the hedge using the EIR method. EIR amortisation may begin as soon as an adjustment exists and no later than when the hedged item ceases to be adjusted

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

for changes in its fair value attributable to the risk being hedged.

If the hedged item is derecognised, the unamortised fair value is recognised immediately in profit or loss. When an unrecognised firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment attributable to the hedged risk is recognised as an asset or liability with a corresponding gain or loss recognised in profit and loss.

## (ii) Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised in OCI in the cash flow hedge reserve, while any ineffective portion is recognised immediately in the statement of profit and loss.

The Group uses forward currency contracts as hedges of its exposure to foreign currency risk in forecast transactions and firm commitments, as well as forward commodity contracts for its exposure to volatility in the commodity prices. The ineffective portion relating to foreign currency contracts is recognised in finance costs and the ineffective portion relating to commodity contracts is recognised in other income or expenses.

Amounts recognised as OCI are transferred to profit or loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognised or when a forecast sale occurs. When the hedged item is the cost of a non-financial asset or non-financial liability, the amounts recognised as OCI are transferred to the initial carrying amount of the non-financial asset or liability.

If the hedging instrument expires or is sold, terminated or exercised without

replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss previously recognised in OCI remains separately in equity until the forecast transaction occurs or the foreign currency firm commitment is met.

## d) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

## 3.13 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with a maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

## 3.14 Taxes

Tax expense comprises of current income tax and deferred tax.

### Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

# Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

Current income tax relating to items recognised outside Statement of profit and loss is recognised outside Statement of profit and loss. Current income tax are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

### Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of taxable temporary differences associated with investments in subsidiaries and interests in joint arrangements, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises

from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;

- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside Statement of profit and loss is recognised outside Statement of profit and loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

The Group recognizes tax credits in the nature of MAT credit as an asset only to the extent that there is convincing evidence that the Group will pay normal income tax during the specified period, i.e., the period for which tax credit is allowed to be carried forward. In the year in which the Group recognizes tax credits as an asset, the said asset is created by way of tax credit to the Statement of profit and loss. The Group reviews such tax credit asset at each reporting date and writes down the asset to the extent the Group does not have convincing evidence that it will pay normal tax during the specified period. Deferred tax includes MAT tax credit.

## 3.15 Employee Benefit

### a) Short Term Employee Benefits

All employee benefits payable within twelve months of rendering the service are classified as short term benefits. Such benefits include salaries, wages, bonus, short term compensated absences, awards, ex-gratia, performance pay etc. and the same are recognised in the period in which the employee renders the related service.

### b) Post-Employment Benefits

#### (i) Defined contribution plan

The Group's approved provident fund scheme, superannuation fund scheme, employees' state insurance fund scheme and Employees' pension scheme are defined contribution plans. The Group has no obligation, other than the contribution paid/payable under such schemes. The contribution paid/payable under the schemes is recognised during the period in which the employee renders the related service.

#### (ii) Defined benefit plan

The employee's gratuity fund scheme and post-retirement medical benefit schemes are Group's defined benefit plans. The present value of the obligation under such defined benefit plans is determined based on the actuarial valuation using

the Projected Unit Credit Method as at the date of the Balance sheet. In case of funded plans, the fair value of plan asset is reduced from the gross obligation under the defined benefit plans, to recognise the obligation on the net basis.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to Statement of Profit and Loss in subsequent periods.

### c) Other long term employment benefits:

The employee's long term compensated absences are Group's defined benefit plans. The present value of the obligation is determined based on the actuarial valuation using the Projected Unit Credit Method as at the date of the Balance sheet. In case of funded plans, the fair value of plan asset is reduced from the gross obligation, to recognise the obligation on the net basis.

### d) Termination Benefits :

Termination benefits such as compensation under voluntary retirement scheme are recognised in the year in which termination benefits become payable.

## 3.16 Share-based payments

Employees (including senior executives) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

# Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

## Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled award are modified, the minimum expense recognised is the expense had the terms had not been modified, if the original terms of the award are met. An additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

## 3.17 Earnings per share

Basic EPS is calculated by dividing the profit / loss for the year attributable to ordinary equity holders of the Group by the weighted average number of ordinary shares outstanding during the year.

Diluted EPS is calculated by dividing the profit / loss attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

approval of the financial statements by the Board of Directors.

## 3.18 Dividend

The Company recognises a liability (including tax thereon) to make cash or non-cash distributions to equity shareholders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the Statement of Profit and Loss.

## 3.19 Provisions and Contingencies

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A contingent liability is a possible obligation that arises from past events whose existence

will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the Consolidated Financial Statements.

Contingent assets are not recognised but disclosed in the Consolidated Financial Statements when an inflow of economic benefits is probable.

## 3.20 Non-current assets held for sale/ distribution to owners and discontinued operations

The Group classifies non-current assets (or disposal group) as held for sale if their carrying amounts are recoverable principally through a sale rather than through continuing use. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale expected within one year from the date of classification.

The criteria for held for sale classification is regarded met only when the assets is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets, its sale is highly probable; and it will genuinely be sold, not abandoned. The Group treats sale of the asset to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset,
- An active programme to locate a buyer and complete the plan has been initiated (if applicable),

# Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

- The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification , and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets held for sale are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately in the balance sheet.

An impairment loss is recognised for any initial or subsequent write-down of the assets to fair value less cost to sell. A gain is recognised for any subsequent increases in the fair value less cost to sell of an assets but not in excess of the cumulative impairment loss previously recognised, A gain or loss previously not recognised by the date of sale of the non-current assets is recognised on the date of de-recognition.

Property, plant and equipment and intangible assets once classified as held for sale/ distribution to owners are not depreciated or amortised.

A discontinued operation qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- Represents a separate major line of business or geographical area of operations,
- Is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations; or
- Is a subsidiary acquired exclusively with a view to resale

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in Consolidated Statement of Profit and Loss.

## 3.21 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

## 3.22 Events after the reporting period

Adjusting events are events that provide further evidence of conditions that existed at the end of the reporting period. The financial statements are adjusted for such events before authorisation for issue. Non-adjusting events are events that are indicative of conditions that arose after the end of the reporting period. Non-adjusting events after the reporting date are not accounted but disclosed.

## 3.23 Exceptional Items

An item of income or expense which by its size, type or incidence requires disclosure in order to improve an understanding of the performance of the Group is treated as an exceptional item and the same is disclosed in the notes to accounts.

## 4. SIGNIFICANT ACCOUNTING JUDGEMENTS AND KEY SOURCE OF ESTIMATION UNCERTAINTY

The preparation of the consolidated financial statements requires management to make judgements, estimates and assumptions about the reported amounts of assets and liabilities, and, income and expenses that are not readily apparent from other sources. Such judgements, estimates and associated assumptions are evaluated based on historical experience and various other factors, including estimation of the effects of uncertain future events, which are believed to be reasonable under the circumstances. The Management has considered the possible effects, if any, that may result from the pandemic relating to COVID-19 on the carrying amounts of its assets. Actual results may differ from these estimates. The estimates and

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the critical judgements and estimations that have been made by the management in the process of applying the Group's accounting policies and that have the most significant effect on the amount recognised in the financial statements and / or key sources of estimation uncertainty that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

## 4.1 Revenue recognition

The Group assesses its revenue arrangement in order to determine if its business partner is acting as a principle or as an agent by analysing whether the Group has primary obligation for pricing latitude and exposure to credit / inventory risk associated with the sale of goods. The Group has concluded that certain arrangements are on principal to agent basis where its business partner is acting as an agent. Hence, sale of goods to its business partner is recognised once they are sold to the end customer.

## 4.2 Customer loyalty program reward points

Customer loyalty program reward points having a predetermined life are granted to customers when they make purchases. The fair value of the consideration on sale of goods resulting in such award credits is allocated between the goods supplied and the reward point credits granted. The consideration allocated to the reward point credits is measured by reference to fair value from the standpoint of the holder and revenue is deferred. The Group at the end of each reporting period estimates the number of points redeemed and that it expects will be further redeemed, based on empirical data of redemption / lapses, and revenue is accordingly recognised.

## 4.3 Provision for discount and sales return

- a) The Group provides for discount and sales return based on season wise, brand wise and channel wise trend of previous years. The Group reviews the trend at regular intervals to ensure the applicability of the same in the changing scenario. Provision is created based on the management's assessment of market conditions.
- b) At each balance sheet date, group estimates the adequacy of provision for discounts to be given to its customers on the sales made by the Company on the basis of historical trend, past experience and discount policies.

## 4.4 Defined benefit plans

The cost of the defined benefit plans and other post-employment benefits and the present value of the obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation and extrapolated as needed along the yield curve to correspond with the expected term of the defined benefit obligation. The underlying bonds are further reviewed for quality. Those having excessive credit spreads are excluded from the analysis of bonds on which the discount rate is based, on the basis that they do not represent high quality corporate bonds.

# Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at intervals in response to demographic changes. Future salary increases are based on expected future inflation rates for the country.

Further details about defined benefit obligations are provided in Note 30.

## 4.5 Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions relating to these factors could affect the reported fair value of financial instruments. See Note 36 for further disclosures.

## 4.6 Allowance for uncollectible trade receivables

Trade receivables do not carry any interest and are stated at their nominal value as reduced by appropriate allowances for estimated irrecoverable amounts. Estimated irrecoverable amounts are based on the ageing of the receivable balance and historical experience. Additionally, a large number of minor receivables is grouped into homogeneous groups and assessed for impairment collectively. Individual trade receivables are written off when management deems them not to be collectible.

## 4.7 Share-based payments

The Group initially measures the cost of equity-settled transactions with employees using a binomial model to determine the fair value of the liability incurred. Estimating fair value for share-based payment transactions requires

determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. For equity-settled share-based payment transactions, the liability needs to be measured at the time of grant. The expenses recognised for share-based payment transactions are disclosed in Note 33.

## 4.8 Taxes

Deferred tax assets are recognised for unused tax credits to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

The Group has taxable temporary difference and tax planning opportunities available that could partly support the recognition of these credits as deferred tax assets. On this basis, the Group has determined that it can recognise deferred tax assets on the tax credits carried forward and unused losses carried forward. Further details on taxes are disclosed in Note 25.

## 4.9 Inventories

An inventory provision is recognised for cases where the realisable value is estimated to be lower than the inventory carrying value. The inventory provision is estimated taking into account various factors, including prevailing sales prices of inventory item, the seasonality of the item's sales profile and losses associated with obsolete / slow-moving inventory items.

## 4.10 Useful lives of Property, Plant and Equipment and Intangible assets

The Group reviews the estimated useful lives of property, plant and equipment and

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

intangible assets at the end of each reporting period. During financial years ended March 31, 2024, there were no changes in useful lives of property plant and equipment and intangible assets other than (a) useful lives of leasehold improvements which have been considered lower of the lease term or useful life and (b) those resulting from store closures / shifting of premises.

## 4.11 Provisions and contingencies

The assessments undertaken in recognising provisions and contingencies have been made in accordance with the applicable Ind AS. A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Where the effect of time value of money is material, provisions are determined by discounting the expected future cash flows.

The Group has capital commitments in relation to various capital projects which are not recognized on the balance sheet. In the normal course of business, contingent liabilities may arise from litigation and other claims against the Group.

Although there can be no assurance regarding the final outcome of the legal proceedings in which the Group involved, it is not expected that such contingencies will have a material effect on its financial position or profitability (Refer Note 14 and 26).

## 4.12 Control Over Subsidiaries

The Company evaluates its control over the entities where it holds significant voting rights and considers them as Subsidiaries where it exercises control (Refer note 43).

### Notes:

- 1) On March 23, 2018, one of the Group Company has entered into an addendum to the license agreements dated December 1, 2015 and March 19, 2014 with Calvin Klein Inc., to add certain product categories to licensed products for a consideration of ₹ 7.14 Crores (equivalent to USD 1.1 Million), which has been capitalised as an intangible asset, in accordance with Ind AS 38, "Intangible Assets". During the current year, that company has renewed the license till December 31, 2028. Also, the same can be renewed for a further period of 5 years without any additional consideration, subject to compliance with certain terms and conditions under the aforesaid agreement. Management has determined that it is virtually certain that the Company would renew the license agreement for a further period of 5 years. Accordingly, the Company is amortising the trademark license rights over the term of the license agreement (including renewal period) till December 31, 2033.
- 2) On September 7, 2011, one of the Group Company has entered into a License Agreement with Tommy Hilfiger Europe BV and obtained an exclusive and assignable license to use the Trademark Tommy Hilfiger, in connection with the manufacture, import, distribution, promotion, advertising and sale of Tommy Hilfiger products in India for a consideration of ₹ 37.80 Crores (equivalent to USD 7.5 Million), which has been capitalised as an intangible asset, in accordance with Ind AS 38, "Intangible Assets". The ownership of aforesaid Trademark rests with Tommy Hilfiger Europe BV.
- 3) Product Developments, Software and Intangible Assets under development includes development cost being internally generated intangible assets.

## 11.5. Issue of Equity Shares on preferential basis

On 21<sup>st</sup> August 2021, the Board of Directors approved issuance of equity shares on a preferential basis to various investors. The Parent Company received the approval of shareholders in the extra ordinary general meeting held on 16<sup>th</sup> September 2021. The Board of Directors approved allotment of 1,83,06,624 fully paid equity shares to various investors at ₹ 218.50 per equity share (of which ₹ 4/- is towards face value and ₹ 214.50 towards premium) on receipt of consideration. There has been no deviation in the use of proceeds of the Preferential Issue, from the Objects stated in the Offer Letter.

## 11.6. Issue of Shares under Right Issue

On June 21, 2020, the Board of Directors of the Parent Company had approved the revised size of Rights Issue of 3,99,79,347 shares of face value of ₹ 4 each (the "Rights Issue Shares") at a price of ₹ 100 per Rights Equity Shares (including premium of ₹ 96 per Rights Equity Share) in the ratio of 62:91, i.e. 62 Rights Equity Shares for every 91 existing Equity Shares held by the eligible equity shareholders on the record date, i.e. March 18, 2020. On July 24, 2020, the Parent Company has approved the allotment of 3,99,79,347 equity shares of face value ₹ 4/- each to the eligible equity shareholders as fully paid up.

On February 03, 2021, the Board of Directors of the Parent Company and subsequently on February 18, 2021, the Committee of Directors had approved the Rights Issue of 1,48,02,856 equity shares of face value of ₹ 4 each (the "Rights Issue Shares") at a price of ₹ 135 per Rights Equity Shares (including premium of ₹ 131 per Rights Equity Share) in the ratio of 3:20, i.e. 3 Rights Equity Shares for every 20 existing Equity Shares held by the eligible equity shareholders on the record date, i.e. February 24, 2021. On March 25, 2021, the Company has approved the allotment of 1,48,01,776 equity shares of face value ₹ 4/- each to the eligible equity shareholders as partly paid up for an amount of ₹ 70/- per Rights Issue Share received on application (of which ₹ 2/- was towards face value and ₹ 68/- towards premium). The allotment of 1,080 Rights Equity Shares has been kept in abeyance pending regulatory/other clearance. The third reminder to pay first and final call of ₹ 65/- was made in the month of August 2022 and the company has received ₹ 17,01,440/- against 26,176 equity shares (of which ₹ 2/- was towards face value and ₹ 63/- towards premium). As on date the First and Final call payment for 24,689 shares amounting to ₹ 0.16 Crores is yet to be received.

# Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

## Note :

The description of the nature and purpose of each reserve within equity is as follows :

### a. Capital reserve on consolidation

Gain on purchase, i.e. excess of fair value of net assets acquired over the fair value of consideration in a business combination or on acquisition of interest in subsidiary is recognised as capital reserve on Consolidation.

### b. Capital reserve

Capital reserve represents capital reserve on amalgamation/business combination. This reserve arose pursuant to scheme of arrangement and shall not be considered to be reserve created by the Group. Utilisation during the year represents the stamp duty paid which is accounted as per the Composite scheme of arrangement for demerger of branded apparel undertaking.

### c. Securities premium

Securities premium is created due to premium on issue of shares. This reserve is utilised in accordance with the provisions of the Companies, Act.

### d. Share based payment reserve

This reserve relates to share options granted by the Group to its and erstwhile Parent Company's employee share option plan. Further information about share-based payments to employees is set out in Note 33.

### e. Net Gain/(Loss) on FVOCI Equity Instruments

The Group has elected to recognise changes in the fair value of certain investment in equity instrument in other comprehensive income. This amount will be reclassified to retained earnings on derecognition of equity instrument.

### f. Cash Flow Hedge Reserve

The hedge reserve represents the cumulative effect portion of gains or losses arising on changes in fair value of designated portion of hedging instruments entered into for cash flow hedges. The cumulative gain or loss arising on the changes of the fair value of the designated portion of the hedging instruments that are recognised and accumulated under the cash flow hedge reserve will be reclassified to profit or loss only when the hedged transaction affects the profit or loss, or included as a basis adjustment to the non-financial hedged item.

<b>Total Revenue from Operations</b>	<b>4,259.12</b>	<b>4,069.49</b>

### Notes :

- a) W.e.f. July 1, 2023 the Group has changed the estimation for calculating Right to Return as per Ind-AS 115 from yearly average to the season average, based on latest trends. Accordingly, the change in return provision is being applied prospectively in accordance with Ind AS-8. Had the group continued with previously assessed method, revenue from operations for the year ended March 31, 2024, would have been higher by ₹ 2.42 crores respectively. While Cost of Goods Sold for the year ended March 31, 2024, would have been higher by ₹ 3.15 crores respectively.

## NOTE 26 : CONTINGENT LIABILITIES

Particulars	₹ In Crores	
	As at March 31, 2024	As at March 31, 2023
<b>Contingent liabilities not provided for</b>		
a. Claims against the Group not acknowledged as debts	6.04	1.40
b. Disputed demands in respect of		
Excise/Customs duty (Refer Note d below)	38.98	38.98
Sales tax/ GST (Refer Note e below)	34.86	34.10
Income tax	39.77	40.73
Labour regulation	0.22	0.22
c. Guarantee given by bank on behalf of the group	0.03	0.40

### Notes :

- (a) It is not practical for the Group to estimate the timing of cash outflows, if any, in respect of the above pending resolution of the respective proceedings.
- (b) The Group does not expect any reimbursements in respect of the above Contingent liabilities.
- (c) The Group believes that the ultimate outcome of these proceedings will not have a material adverse effect on its considered necessary for the same.
- (d) Two of the Group companies had received demand cum show cause notice under section 28(4) read with section 124 of the Customs Act, 1962 from the Directorate of Revenue Intelligence ('DRI'), for short payment of duty due to non-inclusion of certain payments to vendors for determining assessable value for payment of Custom Duty. The Group is confident that its position will likely be upheld in the appellate process against the above demand. However, the Group had deposited ₹1.69 Crores under protest.
- (e) Disputed demand for Sales Tax and VAT includes demand raised mainly due to non-submission of various statutory forms to appropriate authority. Subsequent to the demand, the Group has collected forms covering substantial amount of demand. The Group is in the process of collecting balance forms and hence no provision is considered necessary for the same.

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

## Information about major customers (revenues from single external customer more than 10% of total revenue):

Considering the nature of business of the Group in which it operates, the group deals with various customers including multiple geographies. Consequently, none of the customer contribute materially to the revenue of the group.

## NOTE 30 : DISCLOSURE PURSUANT TO EMPLOYEE BENEFITS

### A Defined Contribution Plans

The following amounts are recognised as expense and included in Note 20 "Employee benefit expenses"

Particulars	₹ In Crores	
	Year ended March 31, 2024	Year ended March 31, 2023
Contribution to Provident Fund	9.89	8.88
Contribution to National Pension Scheme	0.36	0.24
Contribution to ESI	0.02	0.13
Contribution to Labour Welfare Fund	0.01	0.02
<b>Total</b>	<b>10.28</b>	<b>9.27</b>

#### Note

(a) Employees of the Group receive benefits from a provident fund, which is a defined contribution plan. The eligible employees and the Group make monthly contributions to the provident fund plan equal to a specified percentage of the employees' salary. Amounts collected under the provident fund plan are deposited in a government administered provident fund. The remaining portion is contributed to the government-administered pension fund. Employees of the Group receive benefits from a government administered provident fund, which is a defined contribution plan. The Group has no further obligation to the plan beyond its monthly contributions. Such contributions are accounted for as defined contribution plans and are recognised as employee benefits expenses when they are due in the Statement of profit and loss.

### B Defined Benefit Plans

The Group has following post employment benefits which are in the nature of defined benefit plans:

#### Gratuity

The Group provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn salary per month computed proportionately for 15 days salary multiplied for the number of years of service.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using the projected unit credit method. The Group make annual contribution to the gratuity scheme administered by the Life Insurance Corporation of India.

The Group recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligations recognized in other comprehensive income.

Others (Insurance company Products)	100%	100%
(%) of total plan assets	<b>100%</b>	100%

The principal assumptions used in determining above defined benefit obligations for the Group's plans are shown below:

Particulars	Year ended March 31, 2024	Year ended March 31, 2023
Discount rate	7.20%	7.40%
Future salary increase	13.26% to 12.77%	8.3% to 12%
Expected rate of return on plan assets	7.20%	7.30%
Attrition rate	23.7% to 31.1%	18% to 54%
Mortality rate during employment	Indian assured lives Mortality(2006-08)	Indian assured lives Mortality(2006-08)

The above sensitivity analysis may not be representative of the actual benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the projected unit credit method at the end of reporting period.

In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the projected unit credit method at the end of reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognized in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous period.

A quantitative sensitivity analysis for significant assumption is as shown below:

Particulars	Sensitivity level	₹ In Crores	
		Increase / (Decrease) in defined benefit obligation (Impact)	Year ended March 31, 2024
<b>Gratuity</b>			
Discount rate	50 basis points increase	(0.30)	(0.07)
	50 basis points decrease	0.32	0.07
Salary increase	50 basis points increase	0.23	0.04
	50 basis points decrease	(0.23)	(0.05)
Attrition rate	50 basis points increase	(0.08)	(0.01)
	50 basis points decrease	0.07	0.01

The above sensitivity analysis may not be representative of the actual benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the projected unit credit method at the end of reporting period.

In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the projected unit credit method at the end of reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognized in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous period.

## Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

The followings are the expected future benefit payments for the defined benefit plan :

Particulars	Year ended March 31, 2024	Year ended March 31, 2023	₹ In Crores
<b>Gratuity</b>			
Within the next 12 months (next annual reporting period)	3.87	4.16	
Between 2 and 5 years	15.10	13.50	
Beyond 5 years	14.79	10.78	
<b>Total expected payments</b>	<b>33.76</b>	<b>28.45</b>	

Weighted average duration of defined plan obligation (based on discounted cash flows)

Particulars	Year ended March 31, 2024	Year ended March 31, 2023	₹ In Crores
<b>Gratuity</b>	3 years to 4 years	2 years to 7 years	

### C Leave encashment

The Group has a policy on leave encashment which are both accumulating and non-accumulating in nature. The expected cost of accumulating leave encashment is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

Particulars	Year ended March 31, 2024	Year ended March 31, 2023	₹ In Crores
Leave encashment	3.38	4.74	
	<b>3.38</b>	<b>4.74</b>	

### Closing Balance of net defined benefit liability

Particulars	Year ended March 31, 2024	Year ended March 31, 2023	₹ In Crores
a. Long term provisions	5.21	4.15	
b. Short term provisions	4.43	4.51	
	<b>9.64</b>	<b>8.66</b>

<b>Financial liabilities</b>		
Borrowings		
Carrying Amount	466.09	597.65
Fair Value	466.09	597.65

The management assessed that the fair values of cash and cash equivalents, other bank balances, loans trade receivables, other current financial assets, trade payables and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values

The fair value of borrowings is calculated by discounting future cash flows using rates currently available for debts on similar terms, credit risk and remaining maturities.

The fair value of Compulsorily Convertible Preference Shares is calculated considering Monte Carlo Simulation to arrive at conversion ratio and discounted cashflow method to arrive at Equity Value.

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

## NOTE 37 : FAIR VALUE HIERARCHY

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities

Particulars	Date of valuation	Fair value measurement using		
		Total	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)
<b>Liabilities measured at fair value</b>				
Fair value through Other Comprehensive Income				
Foreign Exchange Forward Contracts (Cash Flow Hedge)	March 31, 2024	0.51	-	0.51
	March 31, 2023	0.84	-	0.84

## Fair value hierarchy

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

There are no transfer between level 1, 2 and 3 during the year.

The Group's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

## NOTE 38 : FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial liabilities, other than derivatives, comprise borrowings and trade & other payables. The main purpose of these financial liabilities is to finance the Group's operations and to support its operations. The Group's principal financial assets include Investments, loans given, trade and other receivables and cash & short-term deposits that derive directly from its operations.

"The Group's activities expose it to market risk, credit risk and liquidity risk. In order to minimise any adverse effects on the financial performance of the Group, derivative financial instruments, such as foreign exchange forward contracts, foreign currency option contracts are entered to hedge certain foreign currency exposures. Derivatives are used exclusively for hedging purposes and not as trading / speculative instruments. The Group's risk management is carried out by a Treasury department under policies approved by the Board of directors. Group's treasury identifies, evaluates and hedges financial risks in close co-operation with the Group's operating units. The board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

# Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

## (a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include borrowings, deposits, Investments, trade and other receivables, trade and other payables and derivative financial instruments.

Within the various methodologies to analyse and manage risk, Group has implemented a system based on "sensitivity analysis" on symmetric basis. This tool enables the risk managers to identify the risk position of the entities. Sensitivity analysis provides an approximate quantification of the exposure in the event that certain specified parameters were to be met under a specific set of assumptions. The risk estimates provided here assume:

- a parallel shift of 50-basis points of the interest rate yield curves in all currencies.
- a simultaneous, parallel foreign exchange rates shift in which the INR appreciates / depreciates against all currencies by 2%

The potential economic impact, due to these assumptions, is based on the occurrence of adverse / inverse market conditions and reflects estimated changes resulting from the sensitivity analysis. Actual results that are included in the Statement of profit & loss may differ materially from these estimates due to actual developments in the global financial markets.

The analysis exclude the impact of movements in market variables on: the carrying values of gratuity, pension and other post-retirement obligations and provisions.

The following assumption has been made in calculating the sensitivity analysis:

- The sensitivity of the relevant statement of profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at respective period/year end including the effect of hedge accounting.

## Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt obligations with floating interest rates.

The Group manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings. As at March 31, 2024, approximately 0.11% of the Group's Borrowings are at fixed rate of interest (March 31, 2023: 0.50%)

## Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected, after the impact of hedge accounting. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

Particulars	₹ In Crores	Effect on profit before tax
<b>March 31, 2024</b>		
Increase in 50 basis points		(2.45)
Decrease in 50 basis points		2.45
<b>March 31, 2023</b>		
Increase in 50 basis points		(2.98)
Decrease in 50 basis points		2.98

## Exclusion from this analysis are as follows:

- Fixed rate financial instruments measured at cost : Since a change in interest rate would not change the carrying amount of this category of instruments, there is no net income impact and they are excluded from this analysis
- The effect of interest rate changes on future cash flows is excluded from this analysis.

## Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group transacts business in local currency and in foreign currency, primarily in USD. The Group has obtained foreign currency loans and has foreign currency trade payables and receivables etc. and is, therefore, exposed to foreign exchange risk. The Group may use forward contracts or foreign exchange options towards hedging risk resulting from changes and fluctuations in foreign currency exchange rate.

The Group manages its foreign currency risk by hedging appropriate percentage of its foreign currency exposure, as approved by Board as per established risk management policy. Details of the hedge & unhedged position of the Group given in Note 28.

## Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD and EUR rates to the functional currency of respective entity, with all other variables held constant. The Group's exposure to foreign currency changes for all other currencies is not material. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities. The impact on the Group's pre-tax equity is due to changes in the fair value of foreign currency monetary items designated as cash flow hedge.

Particulars	Change in USD rate	Effect on profit before tax	Change in EUR rate	Effect on profit before tax	₹ In Crores
<b>March 31, 2024</b>					
+2%	0.18		+2%	(0.15)	
-2%	(0.18)		-2%	0.15	
<b>March 31, 2023</b>					
+2%	(1.85)		+2%	(0.02)	
-2%	1.85		-2%	0.02	

Although the financial instruments have not been designated in a hedge relationship, they act as an economic hedge and will offset the underlying transactions when they occur.

# Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

## (b) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. To manage this, the Group periodically assesses financial reliability of customers and other counterparties, taking into account the financial condition, current economic trends and analysis of historical bad debts and ageing of financial assets. Individual risk limits are set and periodically reviewed on the basis of such information. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

## Trade receivables

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally on 30 days to 60 days credit term. Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit. The Group has no concentration of credit risk as the customer base is widely distributed both economically and geographically.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on actual incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 7a. The Group does not hold collateral as security. The Group evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

## Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties who meets the minimum threshold requirements under the counterparty risk assessment process. The Group monitors the ratings, credit spreads and financial strength of its counterparties. Based on its on-going assessment of counterparty risk, the group adjusts its exposure to various counterparties. The Group's maximum exposure to credit risk for the components of the Balance sheet as is the carrying amount as disclosed in Note 28.

## (c) Liquidity risk

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Group closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including bilateral loans, debt and overdraft from both domestic and international banks at an optimised cost. It also enjoys strong access to domestic capital markets across equity.

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments:

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

Particulars	₹ In Crores			
	Less than 1 year	1 to 5 years	More than 5 years	Total
<b>As at March 31, 2024</b>				
Interest bearing borrowings	457.55	11.09	-	468.64
Lease Liabilities	168.45	480.27	70.93	719.65
Trade payables	936.31	-	-	936.31
Security deposits from customers	0.60	117.64	-	118.24
Other financial liabilities#	50.69	-	-	50.69
	<b>1,613.60</b>	<b>609.00</b>	<b>70.93</b>	<b>2,293.53</b>
<b>As at March 31, 2023</b>				
Interest bearing borrowings	572.46	33.06	-	605.52
Lease Liabilities	172.92	491.44	30.82	695.18
Trade payables	1,019.50	-	-	1,019.50
Security deposits from customers	1.38	114.45	-	115.83
Other financial liabilities#	44.39	-	-	44.39
	<b>1,810.65</b>	<b>638.95</b>	<b>30.82</b>	<b>2,480.42</b>

# Other financial liabilities includes interest accrued but not due of ₹ 12.46 Crores (March 31, 2023: ₹ 8.05 Crores)

## Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's performance to developments affecting a particular industry.

## NOTE 39 : CAPITAL MANAGEMENT

For the purpose of the Group's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Group. The primary objective of the Group's capital management is to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group includes within net debt, interest bearing loans and borrowings less cash and short-term deposits (including other bank balance).

Particulars	₹ In Crores	
	As at March 31, 2024	As at March 31, 2023
Interest-bearing loans and borrowings (Note 13)	466.09	597.65
Less: Cash and Cash equivalent (including other bank balance and Book Overdraft) (Refer Note 7(c), 7(d) and 13(c))	(168.55)	(202.78)
<b>Net debt</b>	<b>297.54</b>	<b>394.87</b>
Equity share capital (Note 11)	53.19	53.13
Other equity (Note 12)	950.10	856.51
<b>Total capital</b>	<b>1,003.29</b>	<b>909.64</b>
<b>Capital and net debt</b>	<b>1,300.83</b>	<b>1,304.51</b>
Gearing ratio	22.87%	30.27%

# Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements and other ratios. Breaches in meeting the financial covenants would permit the bank to charge penal interest. There have been no breaches in the financial covenants of any long-term borrowing in the current period except for one loan as of March 31, 2024. The Parent has obtained letter from the lender before the date of adoption of financial statements for not charging penal interest from the balance sheet date subject to regularisation of the breach by end of March 31, 2025. Accordingly, the management has not created provision for penal interest.

No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2024 and March 31, 2023.

## NOTE 40 : DERIVATIVES DESIGNATED AS HEDGING INSTRUMENTS

### Cash Flow Hedges

Foreign exchange forward contracts entered in the current year are designated as hedging instruments in cash flow hedges of forecast purchases in USD. These forecast transactions are highly probable. The foreign exchange forward contract balances vary with the level of expected foreign currency purchases and changes in foreign exchange forward rates.

There is an economic relationship between the hedged items and the hedging instruments as the terms of the foreign exchange forward contracts match the terms of the expected highly probable forecast transactions (i.e., notional amount and expected payment date). The Group has established a hedge ratio of 1:1 for the hedging relationships as the underlying risk of the foreign exchange forward contracts are identical to the hedged risk components. To test the hedge effectiveness, the Group uses the Dollar offset method and compares the changes in the fair value of the hedging instruments against the changes in fair value of the hedged items attributable to the hedged risks.

The hedge ineffectiveness can arise from:

- Differences in the timing of the cash flows of the hedged items and the hedging instruments
- Different indexes (and accordingly different curves) linked to the hedged risk of the hedged items and hedging instruments
- The counterparties' credit risk differently impacting the fair value movements of the hedging instruments and hedged items
- Changes to the forecasted amount of cash flows of hedged items and hedging instruments

Particulars	Maturity				
	Less than 1 month	1 to 3 months	3 to 6 months	6 to 9 months	Total

## NOTE 41 : ADDITIONAL REGULATORY DISCLOSURES AS PER SCHEDULE III OF THE COMPANIES ACT, 2013

- (i) The Parent and Indian subsidiaries does not have any benami property held in their name. No proceedings have been initiated on or are pending against the Parent and Indian subsidiaries for holding benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and Rules made thereunder.
- (ii) The Parent and Indian subsidiaries has not been declared wilful defaulter by any bank or financial institution or other lender or government or any government authority.
- (iii) The Parent and Indian subsidiaries has complied with the requirement with respect to number of layers as prescribed under section 2(87) of the Companies Act, 2013 read with the Companies (Restriction on number of layers) Rules, 2017.
- (iv) Utilisation of borrowed funds and share premium
  - I. The Parent and Indian subsidiaries has not advanced or loaned or invested funds to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding that the Intermediary shall: a) Directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Parent Company (Ultimate Beneficiaries) or b) Provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries.
  - II. The Parent and Indian subsidiaries has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Parent and Indian subsidiaries shall: a) Directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the funding party (Ultimate Beneficiaries) or b) Provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries except as mentioned below.
- (v) The Parent and Indian subsidiaries has not invested or traded in Crypto Currency or Virtual Currency during the year.
- (vi) The Parent and Indian subsidiaries has not surrendered or disclosed as income any transactions not recorded in the books of accounts in the course of tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961) during the year

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

(vii) The Parent and Indian subsidiaries does not have any transactions with the companies struck off under section 248 of the Companies Act, 2013 or section 560 of the Companies Act, 1956 during the year.

## NOTE 42 : DISCONTINUED OPERATIONS

"During the year ended March 31, 2024, the parent entered into Share Purchase Agreement (SPA) with Reliance Beauty & Personal Care Limited to sell and transfer entire equity stake held in Arvind Beauty Brands Retail Limited (ABBRL) (now known as Reliance Luxe Beauty Limited), at an enterprise value of ₹ 212.79 Crores (subject to true up adjustments based on closing period balances) towards sale of equity shares and repayment of loans.

Based on the ongoing reconciliation of closing period balance, estimated revised Enterprise value is ₹ 211.09 Crores. Accordingly Loss of sale of equity investment amounting to ₹ 40.06 Crores have been recognized in quarter ended December 31, 2023.

During the year ended March 31, 2024, parent has completed the reconciliation with Reliance and revised Enterprise value is ₹ 212.79 crores. Accordingly, loss on sale of equity investment is reduced by ₹ 1.69 crores. The parent has made a provision of equivalent amount towards the ongoing contingent matters related to ABBRL business prior to transfer date to be borne by the parent as per SPA.

ABBRL ceased to be a subsidiary from November 03, 2023.

The Management of Arvind Lifestyle Brands Limited (ALBL), a wholly owned subsidiary has decided to discontinue Brands Aeropostale and Ed Hardy. Accordingly, business of these brands are considered as a discontinued operation in accordance with Ind As 105 and accordingly, re-classified the financial results for the periods presented.

## NOTE 45 : AUDIT TRAIL

The Ministry of Corporate Affairs(MCA) has issued a notification(Companies(Accounts) Amendments Rules,2021) which is effective from April 01,2023, State that every Company which uses accounting software for maintaining its books of account shall use only such accounting software which has a feature of recording audit trail of each and every transaction, and further creating an edit log of each change made in the books of account along with the date when such changes were made and ensuring that the audit trail cannot be disabled:

- In case of one subsidiary incorporated in India, no audit (edit log) was enabled for certain software at database level.
- In case of one subsidiary incorporated in India, no audit (edit log) was enabled for certain changes made using privileged/administrative access rights to the accounting software at database level.

Further no instance of audit trail feature being tampered with was noted for accounting software used by Parent and subsidiaries incorporated in India.

# Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

## NOTE 46 : RATIO ANALYSIS \*

SI No	Particulars	Numerator	Denominator	For the year ended 31 <sup>st</sup> March, 2024	For the year ended 31 <sup>st</sup> March, 2023	% Variance	Reason for Variance
1	Current Ratio (In times)	Current Assets	Current Liabilities	1.27	1.20	6%	Not Applicable
2	Debt-Equity Ratio (In times)	Total Debt	Total Equity	0.46	0.66	-29%	Note (a) below
3	Debt Service Coverage Ratio (In times)	Earnings before Interest, Tax, Depreciation and amortisation	Debt Service	2.97	3.84	-23%	Note (b) below
4	Return on Equity Ratio (%)	Net Profit after Tax	Total Equity	10.62%	12.01%	-12%	Not Applicable
5	Inventory turnover Ratio (In times)	Revenue from Operations	Average Inventories	4.50	4.49	0%	Not Applicable
6	Trade Receivables turnover Ratio (In times)	Revenue from Operations	Average Trade Receivables	7.06	7.19	-2%	Not Applicable
7	Trade Payables turnover Ratio (In times)	Purchase of Goods	Average Trade Payables	2.08	2.00	4%	Not Applicable
8	Net capital turnover Ratio (In times)	Revenue from Operations	Working Capital	9.1	10.9	-16%	Not Applicable
9	Net profit Ratio (%)	Net Profit after Tax	Revenue from Operations	2.50%	2.68%	-7%	Not Applicable
10	Return on Capital employed (%)	Profit before Interest, Exceptional Items and Tax	Capital Employed	24.75%	21.15%	17%	Not Applicable
11	Return on investment (%)	Refer (c) below		62.11%	-1.33%	4757%	Note (d) below

\* All Ratios have been worked out considering only continuing operations.

### Notes :

- (a) There is an improvement due to decrease in Debt for the year compared to previous year.
- (b) Debt service coverage ratio is reduced in the current year due to reduction in Profit available for debt service compared to previous year.

### (c) Return on Investment

$$\begin{aligned} & (\text{MV}(T1)-\text{MV}(T0)-\text{Sum}[C(t)]) \\ & (\text{MV}(T0)+\text{Sum}[W(t)*C(t)]) \end{aligned}$$

Where,

T1 = End of time period

T0 = Beginning of time period

t = Specific date falling between T1 and T0

MV(T1) = Market Value at T1

MV(T0) = Market Value at T0

C(t) = Cash inflow, cash outflow on specific date

W(t) = Weight of the net cash flow (i.e. either net inflow or net outflow) on day 't', calculated as (T1-t)/T1

- (d) The impact is due to market dynamics and price movements.

# Notes to the Consolidated Financial Statements

For The Year Ended March 31, 2024

## NOTE 47 : CODE OF SOCIAL SECURITY, 2020

The Parliament of India has approved the Code of Social Security, 2020 (the Code) which may impact the contribution by the Group towards Provident Fund, Gratuity and ESIC. The Code have been published in the Gazette of India. However effective date has yet not been notified. The Group will assess the impact of the Code and will record related impact in the period it becomes effective.

## NOTE 48 : EVENTS OCCURRING AFTER THE REPORTING PERIOD

The Group evaluates events and transactions that occur subsequent to the balance sheet date but prior to the approval of financial statements to determine the necessity for recognition and/or reporting of subsequent events and transactions in the financial statements. The Board of Directors recommended a final dividend of ₹ 1.25 per equity share of face value of ₹ 4 each, for the financial year ended March 31, 2024, subject to the approval of shareholders in the ensuing Annual General Meeting.
